Summary

Recent Computer Science and Engineering graduate (2026) with a CGPA of 9.25, proficient in Java and full-stack web development. Strong foundation in Object-Oriented Programming, Data Structures & Algorithms, and DBMS. Experienced in developing web applications using React.js, Node.js, Express.js, and MongoDB through academic and internship projects. Currently learning Artificial Intelligence and Machine Learning to expand my technical expertise. Passionate about building scalable software solutions, solving complex problems, and continuously learning new technologies.

Education

Walchand Institute of Technology, Solapur BTech in Computer Science & Engineering (Honors in Artificial Intelligence & Machine Learning) CGPA: 9.25	09/2022 – 06/2026
Tripura Junior Science College, Latur XII (HSC) Science (PCM) - 81.17%	06/2021 – 05/2022
Madhawarao Bhosale High School, Matola X (SSC) - 93%	06/2019 – 05/2020

Skills

Programming Languages: Java, Python, JavaScript (ES6+), SQL
Web Technologies: HTML5, CSS3, Bootstrap, React.js, Node.js, Express.js, RESTful APIs
Databases: MongoDB, MySQL
Core Computer Science: Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), DBMS, Software Development Life Cycle (SDLC)
Tools: Git, GitHub, VS Code, Postman, Hoppscotch
Soft Skills: Problem Solving, Analytical Thinking, Debugging, Team Collaboration, Communication, Adaptability

Projects

- QR-Based Emergency Information System**
- Developed a full-stack emergency information system using React.js, Node.js, Express.js, and MongoDB, following the Software Development Life Cycle (SDLC).
 - Implemented secure user authentication, QR code generation, and RESTful APIs for efficient data management and retrieval.
 - Designed a responsive and user-friendly interface to ensure seamless accessibility across desktop and mobile devices.
 - Used Git and GitHub for version control and collaborated effectively within a team during development.
- Wanderlust (Airbnb Clone)**
- Developed a full-stack travel accommodation web application using HTML, CSS, Bootstrap, JavaScript (Frontend) and Node.js, Express.js, MongoDB (Backend & Database), enabling users to browse, create, edit, and manage property listings.
 - Implemented secure user authentication and authorization using Passport.js with session-based authentication to provide role-based access to listings and reviews.
 - Built RESTful APIs and integrated MongoDB to perform CRUD operations for listings, reviews, and user data.
 - Designed a responsive and user-friendly interface with Bootstrap, allowing users to view property details, ratings, reviews, and images across different devices.
 - Enhanced application functionality with server-side validation, error handling, session management, and flash messages to improve application security and user experience.

Experience

- Web Development Intern, UptoSkills** 04/2025 – 07/2025
- Developed responsive web applications using HTML, CSS, JavaScript, and React.js
 - Built reusable UI components to improve code maintainability and development efficiency
 - Implemented and optimized frontend features following agile development practices
 - Debugged UI issues and collaborated with cross-functional team members to deliver project features on time
- IT Intern, Digisamaksh** 12/2025 – 03/2026
- Assisted in coding, debugging, and testing software applications following SDLC guidelines for timely delivery
 - Worked on WordPress for website development and content management tasks
 - Prepared technical documentation including code comments, user guides, and project reports
 - Researched emerging technologies and tools to support ongoing development work
 - Collaborated with developers, testers, and project managers to troubleshoot issues and maintain technical infrastructure

Certificates

Java Programming - Infosys Springboard
Python Programming - HCL Guvi
SQL Database - Infosys Springboard
Web Development - Apna College
